

Matthias Naidu-Altemeyer

IT Consultant

- Project Management
- Technical Project Coordination
- Test Coordination
- Application Support
- System / Network / Security Management
- IT Training / Workshops
- Technical Documentation (ger/en)

Born in Stuttgart, July 8th 1965, married, three children.

Excellent Health.

German drivers License 3.

Languages: German and English (fluent both in speaking and writing).

Self-starter, creative, reliable, goal oriented, highly motivated.

Interests include music (composition, mixing and production), cooking, skiing.

Last Update: May 2006

Projects

Period	Company	Function
Jul 2002 – Dec 2005	Commerzbank AG Frankfurt/Main	Coordinator Operational Units / IT Technical Project Manager
Environments / Tools		
HP GS160 Wildfire, Misc. HP Alpha Systems	SWIFT OpenVMS DECnet TCP/IP SNA LU6.2	Global Payment System MS Office MS Project Visio
<p>Montran's Global Payment System (GPS) is used for the banks transaction processing. With the project „Grenzüberschreitendes Umsatz- und Transaktionsmanagement“ (GUT) the foreign countries transactions were to be included. With the completion of the project the daily amount of transactions is approx. 60.000 with a volume of about 50 billion Euros.</p> <p>The production is carried out on a GS160 Wildfire from HP running OpenVMS. Miscellaneous development and test systems on various hardware platforms also run OpenVMS</p> <p>Assignments as Coordinator:</p> <ul style="list-style-type: none"> • Coordination of enhancements for the GPS system between the functional test group, the system support group and the software vendor Montran by translating operational requirements into software specifications • Coordination, supervision and analysis of regression tests plus implementation of these changes into the production environment • Participation in design and creation of a DB application in order to allow creation of any SWIFT MT • Design and implementation of specific test message kits in coordination with the operational teams in areas such as IBAN validation, direct party, third party, export, value date calculation, etc. • Analysis of failed STP messages in coordination with the operational teams resulting in increased qualities of field contents, respectively the automated correction algorithms. <p>Assignments as Technical Project Manager:</p> <ul style="list-style-type: none"> • Team leader of the support group for all development and test systems • Development of a monitoring tool for GPS • Performance analysis of hardware / software / application • Introduction of PVCS compliant with the internal audit requirements • Delivery of the enhanced GPS systems to normal operation with repeated schooling and training on the job for the employees • Production monitoring, analysis of production problems and coordination of fixes with the software vendor <p>Coordinator for project kick-off “target2”</p>

Period	Company	Function
Oct 2001 - Jun 2002	Dynawell AG Zurich	Technical Project Manager
Environments / Tools		
Misc. PC Server / Workstations	MS Windows NT/XP/2K NT Cluster	Visual Basic
General Software Support. Planning and implementation of an office automation GUI using Visual Basic. Pre-Installation and configuration of NT2000 Cluster systems on Compaq Hardware.		

Period	Company	Function
Dec 2000 - Sep 2001	SEB AG Frankfurt/Main	Project Manager
Environments / Tools		
Misc. VAX/Alpha Systems	MS Windows NT	Eurex
Misc. PC Server / Workstations	NT Cluster	Xetra
	OpenVMS	Rolfe&Nolan
	DECnet TCP/IP VLAN	Optas
Eurex and Xetra environment support. Support for back- and front office applications such as Rolfe&Nolan and Optas. Migration of Eurex environment from OpenVMS to Windows NT, technical support for the trader floor. Introduction of VLAN Technology in the 3com / Cisco Network Environment. System, Network and Security Management for all OpenVMS installations. Windows NT third level support. Setup and maintenance of an Access Server (Cisco) for remote dial-in connections via ISDN using call back mechanism. Planning, implementation and support of Windows NT Cluster Technology on various server systems. Organizational restructuring of support team.		

Period	Company	Function
Feb 2000 - Nov 2000	Dresdner Bank AG Frankfurt/Main	Consultant
Environments / Tools		
Misc. VAX/Alpha Systems	OpenVMS DECnet	Eurex
System, Network and Security Management for all OpenVMS installations in the trading departments. Front-End and System Support for all OpenVMS Eurex Installations, System Support for all OpenVMS Back Office Installations. Development team member for intranet programming.		

Period	Company	Function
Aug 1999 - Jan 2000	BfG Bank AG Frankfurt/Main	Consultant
Environments / Tools		
Misc. DEC/Alpha Systems	OpenVMS	Eurex
Misc. PC Server / Workstations	Windows NT DECnet TCP/IP	Xetra
Eurex and Xetra environment support, technical support for the trader floor. System, Network and Security Management for all OpenVMS installations.		

Period	Company	Function
Jun 1997 - Jul 1999	Deutsche Börse Systems AG Frankfurt/Main	Project Manager, Consultant
Environments / Tools		
Misc. VAX/Alpha Systems	OpenVMS DECnet TCP/IP	Eurex Xetra Visual Basic SQL Reflection Suite
Standardization and Redesign of the Deutsche Wertpapier Zentrale OpenVMS environments (MultiMember User Devices, Satellites and Back Office Systems). System Support for the Deutsche Börse Systems Production and Development environments. Multiple configurations and acceptance testing for the Xetra System. Design and documentation of programming guidelines for DTB development. DTB Production Team member. Member of the Network Team defining, configuring and supporting customer connections for both Eurex and Xetra environments. Design, coding and implementation of various automation tools and applications using Visual Basic, SQL and Reflection Suite Terminal Emulation software.		

Period	Company	Function
Jun 1996 - Mai 1997	MAAG AG Zurich	Technical Project Manager, Consultant
Environments / Tools		
Misc. VAX Systems Misc. PC Server / Workstations	OpenVMS DECnet TCP/IP LAT Windows NT	Pathworks Novell
Head responsible for the companies OpenVMS environments. Standardization of all OpenVMS Computers/Clusters involving complete new installation and configuration of many systems. Complete cleanup, redesign and documentation of the company's entire IS infrastructure due to the decision to outsource the complete computer support to an external company. Acceptance Testing of various software products for data center automation/monitoring. Evaluation of miscellaneous emulation software packages. Migration from Pathworks to NOVELL (approx. 400 PCs / 150 printers). Migration from DECnet transports to TCP/IP.		

Period	Company	Function
Mar 1996 - May 1996	OMNIA Informatics GmbH Munich	Consultant
Environments / Tools		
Misc. PC Server /Workstations Misc. Unix Server	TCP/IP	
Complete TCP/IP network redesign and implementation in-house due to the move of the company.		

Period	Company	Function
Feb 1996	DASA Augsburg	Consultant
Environments / Tools		
Misc. VAX Server Misc. PC Workstations	OpenVMS	Pathworks
Migration of Pathworks environment (approx. 50 PCs / 20 printers) from Version 4 to Version 5.		

Permanent Employments

Period	Company	Function
Jan 1990 - Mar 1995	Radio Free Europe / Radio Liberty Munich	Supervisor System Management Director Broadcast Support Service Deputy to the Corporate IS Manager
Environments / Tools		
Misc. VAX Server	OpenVMS	NEWSWIRE 2000
Misc. PC Workstations	DECnet	
Misc. Macintosh Workstations	TCP/IP Appletalk	
<p>Project management for upgrading the data center to VAX/VMS V5.0 and all subsequent upgrades of the OS up to V6.1- Daily system and network management and supervision of the operators. Numerous temporary assignments to the offices in Washington D.C. and New York to implement new applications and miscellaneous IS integration products. Implementation of Pathworks for PC and Macintosh, network-integration of 500+ workstations. Network Management including DECnet management, P.S.I. security and accounting management. Project manager for the company's prime production application NEWSWIRE 2000 including vendor coordination, new-release acceptance testing, coordination and supervision of internal NEWSWIRE 2000 application and user support personnel, site-specific NEWSWIRE application development. Project management for moving of all IS functions from Munich to Washington D.C. and Prague.</p>		

Period	Company	Function
Mai 1986 - Dec 1989	Digital Equipment GmbH Munich	System Manager Service Manager

Project management for disaster recovery planning, building and datacenter security analysis at customer sites in Central Europe. Key role in pilot project for implementation of SMS (System Management Service) in Central Europe. Responsible System Engineer for the DEContainer systems in Central Europe. Team member of the central European security group. System Management Service Engineer in Germany, servicing 20+ customers.</p>		

Technical Skills

Operating Systems

- OpenVMS VAX/AXP (since Version 4.2)
- Windows 3.x / 9x / NT / 2000 / XP
- MS-DOS
- Apple MAC up to OS X
- SUN Solaris (basic knowledge)
- Linux (basic knowledge)

Network

- DECnet
- LAT
- Appletalk
- TCP/IP
- X.25 / 400
- SNA LU6.2

Programming / Script Languages

- Assembler
- BASIC
- PASCAL
- C / C ++
- Visual Basic
- DCL
- TCL/TK
- Perl
- HTML
- CSS
- Java / Java Script

Software

Layered Products

- HP Layered Products
- Reflection Emulators
- ArcServ
- Multinet
- Appletalk for VMS
- Alisa Share
- Remote Tape Facility
- OMNIguard
- Robomon
- Target Hotline
- Target Batch
- Hitman
- NSS Watcher
- OmniaGuard
- TACO
- PDMF
- ARSAP Accounting

Tools

- MS Office
- MS Project
- Lotus Notes
- Visio
- Canvas
- UML

Financial

- Eurex
- Xetra
- DEVON
- Rolfe&Nolan
- Optas
- Montran GPS
- SWIFT
