- Apple MAC OS X
- SUN Solaris (Basic Knowledge)

Programming / Scripting

- | | | | |
|-------------|----------------|----------|----------------------|
| - Assembler | - C / C ++ | - DCL | - HTML |
| - BASIC | - Visual Basic | - TCL/TK | - CSS |
| - PASCAL | | - Perl | - Java / Java Script |

DEC Software

Expert knowledge of

- | | |
|--------------|-----------------|
| - Cluster | - TSM |
| - DCL | - Pathworks MAC |
| - RAID 0/1/5 | - Pathworks DOS |
| - PolyCenter | - DECnet |
| - DNS | - LAT |
| - DFS | - UCX |
| - DQS | - P.S.I. |
| - RSM | |

Substantial knowledge of

- SNA Products
- SLS
- DECwindows Motif

General knowledge of

- FMS
- TDMS
- CDD

Other Software

- | | | | |
|---------------|---------------|---------------------|--------------------|
| - MS Office | - Lotus Notes | - Multinet | - Target Hotline |
| - Eurex | - Visio | - Appletalk for VMS | - Target Batch |
| - Xetra | - Canvas | - Alisa Share | - Hitman |
| - DEVON | - Reflection | - Remote Tape | - NSS Watcher |
| - Rolfe&Nolan | - Emulators | - Facility | - OmniaGuard |
| - Optas | - ArcServ | - OMNIguard | - TACO |
| - Montran GPS | | - Robomon | - PDMF |
| | | | - ARSAP Accounting |

Assignments

Since Jul 2002	Commerzbank Frankfurt/Main Technical Projekt Manager	Montran's Global Payment System (GPS) is used for the banks inter bank transactions. With the project „Grenzüberschreitendes Umsatz- und Transaktionsmanagement“ (GUT) the foreign countries transactions were to be included.
